

Fit and Size Guide.

Much research has gone into developing the fits and silhouettes for the CAS GOLF collection. CAS GOLF has used real women's measurements across different body shapes and sizes and translated these nuances into unique patterns.

Although fashionability is a key brand principle, it is never at the expense of fit, femininity and comfort, which have all been carefully considered in the range creation.

CAS GOLF TOPS

Cass is wearing a small (S) golfer. She is tall (173cm) and prefers a more figure hugging fit. Cass usually wears a size 10.

Siby is wearing an extra small golfer (XS). She is tall (175cm) and prefers a regular fit - not too tight and not too loose. Siby usually wears a size 8.

Cheryl is wearing a large (L) golfer. She is an average height (165cm) and prefers a looser fit. Cheryl usually wears a size 14.

- All tops and jackets are a slim silhouette but not fitted, with a feminine, flattering shape
- The top lengths are slightly longer at the back than the front and can be easily worn tucked in or left out where the taped side slits then add a designer finish
- The back of the tops has a curved cutline across the shoulder to allow for easy movement
- The sleeves are a modest length to cover the upper arm
- Fabrics are performance orientated with a high-stretch content and are super soft for extra comfort
- For the golfers, it is advised to size up if a much looser fit is preferred
- The jackets have been created with more of a generous fit as they are meant to be worn as an over-garment

CAS GOLF BOTTOMS

*Cass is wearing a small (S) ankle pant.
She is tall (173cm).
Cass usually wears a size 10.*

*Cheryl is wearing a large (L) cropped pant and a
medium (M) jacket.
She is an average height (165cm).
Cheryl usually wears a size 14.*

*Sibu is wearing an extra small (XS) cropped pant.
She is tall (175cm).
Sibu usually wears a size 8.*

PANTS AND SHORTS

- These are available in 2 fabric options:
 - A lightweight woven stretch (relaxed fit)
 - A firm, woven stretch (slim fit)
- Even though the fabric has a high stretch content, the garments retain their shape on the body after a few hours of wear. This allows for maximum comfort, easy movement and ensures that you finish your round of golf looking as good as you did when you stood on the first tee
- These are all in a pull-on style with a wide, half-elasticated waistband, a medium rise and have belt loops
- Pants are offered in 2 fashionable yet functional lengths - ankle length and cropped (mid-calf)
- For the not so tall ladies, the ankle length will end up just above the shoe line and the cropped length will be closer to a three-quarter length - still giving you a fabulous look
- The short length is just above the knee for average - tall ladies and on the knee for shorter ladies
- The short silhouette is quite fitted to give a stylish, slimming look and adequately covers the thighs
- The pants and shorts have pockets to accommodate tees, ball markers and pitch mark repairers when out on the course
- There is also a new jogger style in a comfortable knit, stretch fabric

*Cass and Sibü are both wearing a small (S) slim short.
Cass is tall (173cm), usually wears a size 10 and prefers a more figure hugging fit.
Sibü is tall (175cm), usually wears a size 8 and likes this style in a more relaxed fit.*
